

Dianella revoluta 'DR5000' LITTLE REV™

**AVAILABLE TO LICENCED OZBREED
GROWERS ONLY**

Little Rev™ is a compact grass with blue-grey foliage. It's upright habit gives it great architectural form making it perfect for any modern landscape. Little Rev™ is a very hardy, attractive plant that needs little maintenance once established. It's frost and drought tolerant with low water requirements, and is best planted in raised or flat landscapes where there's low risk of getting wet feet.

The small, compact habit of Little Rev™ makes it ideal for roadsides, median strips, roundabouts, carparks, golf courses and ornamental gardens. It's also great as an accent plant, providing good foliage contrast.

HIGHLIGHTS:

- Blue, upright, narrow foliage
- Small blue flowers from October to November
- Drought tolerant and cold hardy
- Great modern, architectural foliage
- Performs well in free draining soils of WA and SA including near the coast.

Species	Dianella revoluta
Common name	Strappy leaf grass
Produced from	Tissue Culture
Tray size	105E
Label code	51-5522
Height/Width	40cm / 40cm
