

Lomandra longifolia KATRINUS DELUXE

**AVAILABLE TO LICENCED OZBREED
GROWERS ONLY**

Katrinus Deluxe is an improved form of Lomandra 'Katrinus' with bigger flowers, a finer leaf and a more dense, compact form. It's non-seeding, clean growing with a uniform habit resulting in an amazing display when planted en masse. Katrinus Deluxe looks good in specimen plantings as well as commercial plantings such as roadsides, golf courses, factories and offices.

Unlike other lomandra longifolia that strengthen soil at 50%, Katrinus Deluxe has proven to strengthen the soil at 366%. It tolerates windy and salt laden positions, and lives on natural rainfall in most populated areas throughout Australia. In extreme drought occasional top up watering is required, although Katrinus Deluxe has proven to have excellent drought tolerance.

HIGHLIGHTS:

- The best Lomandra for soil strengthening
- Clean, uniform habit
- Excellent drought tolerance
- Large, perfumed flowers from Oct - Nov

Species	Lomandra longifolia
Common name	Strappy leaf grass
Produced from	Tissue Culture
Tray size	105E
Label code	51-5368
Height/Width	70cm / 70cm
Habit	Dense, compact habit
Growing pH	pH 6.0 - 6.5
Finishing Times	In 140mm, 8-10 weeks
Pests & Diseases	No major problems
Position	Full sun to moderate shade
